REALLY GOOD WINE MADE IN OREGON

Sourced from premier Willamette Valley vineyards and aged in 100% stainless steel, this Rosé is a balance of bright fruit and juicy acidity.

Our rosé is perfect for your everyday occasion with its enjoyable light body, and refreshing zippiness. This fruit-forward sunshine sipper is a beautiful balance of fresh strawberry notes with herbaceous and floral components of hibiscus, rosehip, and wild thyme. The lingering and mouthwatering finish will make you want to enjoy this rosé all day with everything from prosciutto-wrapped melon, ceviche, or a backyard dinner party.

After a number of warm years in a row, 2019 was slightly more reminiscent of a classic Oregon vintage. After an early spring start, the growing season remained mild through the summer. Fall was temperate with nearly an inch of rain in the middle of September and fortunately, the latter half of the month was cool and clear, allowing sugars and more importantly, flavors to accumulate. Grapes started rolling in for us early in October.
