

REALLY GOOD WINE MADE IN OREGON

Oregon's Chardonnay renaissance is alive and well, and we're happy to have been a part of it since 2010! Our fresh, bright Chardonnay maintains its varietal integrity without any trace of butter or oak.

Every growing season in the Willamette Valley presents us with a unique and thought-provoking array of challenges. For 2022, frost in late spring had us wondering about lower yields. Thankfully, when the sun came out, it stayed; boosting yields and ripening our fruit over a record-breaking dry summer. Our team truly came together for this harvest creating exciting wines to look forward to.

Our 2022 Chardonnay starts with a fresh aroma of pineapple, lemon bar, confectioners' sugar, and apple. Though dry and unoaked, the palate on this Chardonnay has the luscious and rich midpalate with a steely acidity that balances the texture perfectly. With flavors of white peach, caramel apple, and tangerine, this Chardonnay can play with any dish, from Pho takeout to movie night popcorn.
